Sunday August 24, 10:45 – 11:45 am. Room 605: Poster Presentations (5 minute talks)

Two Updates:

- The poster presentation, “A Possibility to Develop SSM-School Sky Museum,” by Jo Chiung Hua Chen and Chih Feng Lin (room 605) has been withdrawn from the program at the request of the authors.
- Another poster presentation, “The Duration of Pleasure in the Experience of Beauty,” by Denis G. Pelli and Lauren Vale was inadvertently omitted from the printed program and replaces the Chen and Lin poster presentation in room 605. Abstract:

  The Duration of Pleasure in the Experience of Beauty  
  Denis G. Pelli (denis.pelli@nyu.edu) & Lauren Vale (lauren.vale@nyu.edu)  
  New York University, USA

We measure the time course of pleasure in the experience of beautiful art. Observers pick an artwork that is beautiful to them. We ask the observer to rate the pleasure experienced from the stimulus continuously for two minutes. After two minutes, we remove the stimulus and we ask the observer to rate the lingering pleasure for another two minutes. We fit an exponential to the decaying pleasure, after stimulus offset. We find that high, long-lasting pleasure is a hallmark of the beauty experience, absent for less-than-beautiful objects. Furthermore, we have discovered several “beauty knockout” conditions that abolish high, long-lingering pleasure, and hardly affect lesser pleasures.

Sunday August 24, 12:00 pm – 1:30 pm.  
LUNCH WILL NOW BE CATERED IN THE 8TH FLOOR FACULTY DINING ROOM,  
JUST AS ON FRIDAY AND SATURDAY (NOTE THE CHANGE OF TIME AS WELL).

Sunday August 24, 2:00 – 3:45 pm. Room 603: Spoken Papers

One Update:

- For the spoken presentation, “Do Cognitive Modules Determine Beauty and Aesthetic Perception? Interdisciplinary Research on Cognitive Neuroaesthetics and Humanistic Aesthetics,” by Zhihong Li and Yanhui Wang, the academic affiliation was misprinted in the program. It should be “Jilin University, China.”

Sunday August 24, 3:45 – 4:30 pm. Room 603: Spoken Papers

Two Updates:

- The spoken presentation, “Dr. Bob’s SoundSchool: Using Music and Creativity to Enhance Science Learning for Grade School Children,” by Jonna Kwiatkowski has been rescheduled as the final talk in the 3:15-5:15pm session in Room 615 on Saturday August 23 (see above).
- Another spoken presentation, “Anger in the Theater: A Field Study on Framing, Emotion, and Pleasure,” by Valentin Wagner et al. was inadvertently omitted from the printed program. It replaces the Kwiatkowski spoken presentation in this session. Abstract:

  Anger in the Theater: A Field Study on Framing, Emotion, and Pleasure  
  Valentin Wagner  
  Max Planck Institute for Empirical Aesthetics, Frankfurt a. M., Germany  
  Julian Klein  
  Frankfurt University of Music and Performing Arts, Frankfurt a. M., Germany  
  Winfried Menninghaus
The study suggests that an art-schema—the interpretation of a situation as one of art-reception—might contribute to explaining the “paradoxical” enjoyment of negative emotions in art and entertainment. In a disguised real-life study in the field, for one group of participants an anger inducing treatment was framed as an aptitude test developed by a recruitment firm; for a second group the same treatment was framed as a theater performance. Self-reports of emotional states and blood pressure data showed evidence for both the effectiveness of the anger-treatment and the situation framing. Participants in the theater-group experienced less anger and more enjoyment than participants in the assessment-group. The study supports the significance of art-schema activation for the enjoyment of negative emotions.
